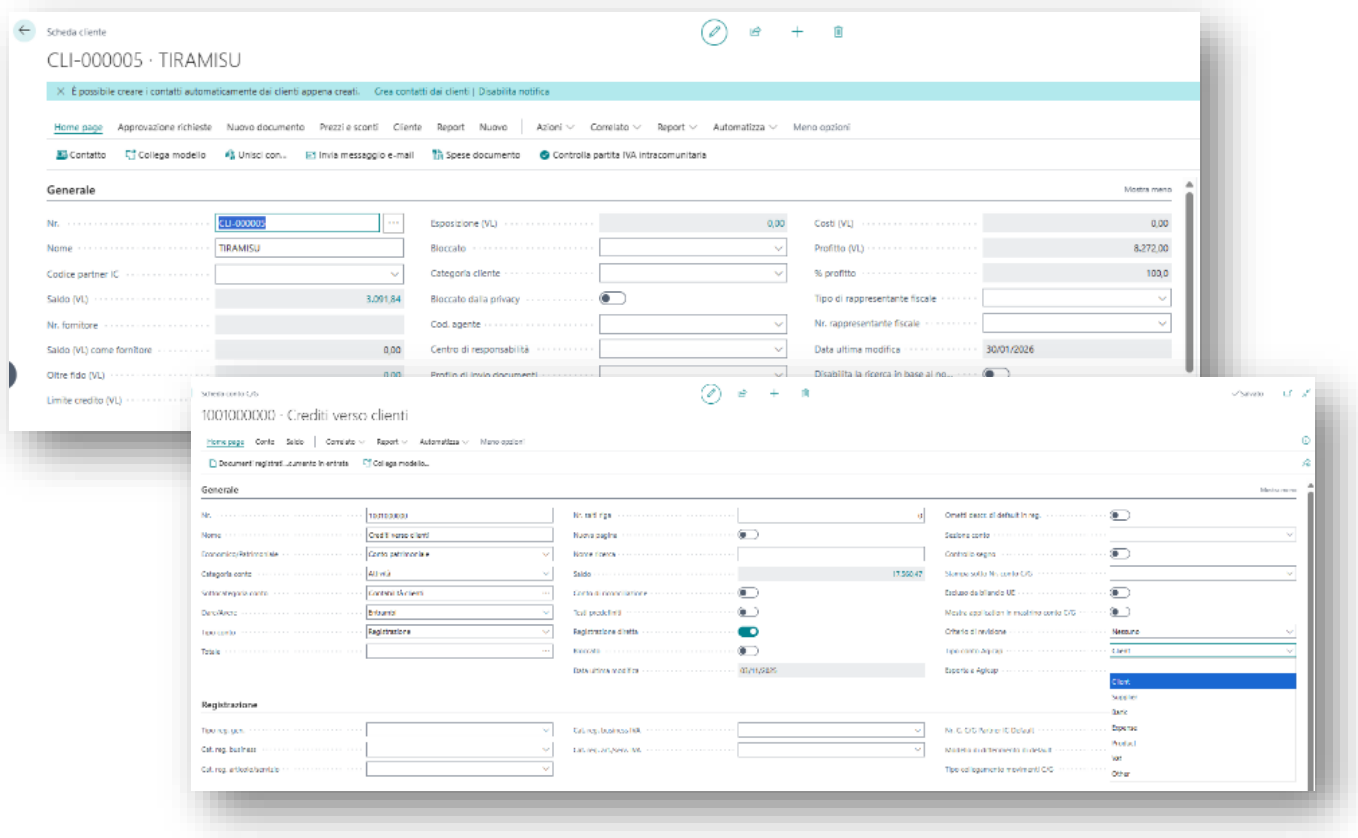
Agicap Integration W1

The app to connect Agicap with Microsoft Dynamics 365 Business Central

LOOKie BC-Agicap Integration W1

LOOKie BC-Agicap Integration W1 connects your Microsoft Dynamics 365 Business Central ERP with Agicap's cash flow management software.

With this module, you can seamlessly sync data between your ERP and treasury, streamlining administrative workflows and minimizing the risk of errors. Share master data for G/L accounts, customers, vendors, and bank accounts in just a few clicks.



Thanks to the integration between Microsoft Dynamics 365 Business Central and Agicap, customer ledger entries update automatically whenever dates, due dates, or open entry settlements change.

Your Microsoft Dynamics 365 Business Central Partner

About us

LOOKie is the Gruppo Omega business unit dedicated to Microsoft Dynamics 365 Business Central, designed to meet the needs of companies with complex and challenging processes.
A team of Microsoft Dynamics 365 Business Central experts by your side to develop tailored and innovative solutions.
